Comments

"David is a pleasure to work with. Extremely creative, free-thinking, diligent and above all fun. His experience behind the camera adds enormously to the success of any project. As a director I would not hesitate to recommend David he brings life to my projects and the experience of making them." Stephen Judge, Director

"David has been a first choice DOP for many years now. Not by force of habit but because he has always brought along his rare talent of combining speed of operation with creative excellence. David has an ability to understand the wider editorial and emotional picture whilst working on any particular shot and therefore constantly brings an added dimension to the process. This, combined with a unique set of skills, superb camera and lens packages onboard and personally created / adapted kit, means that I am compelled to recommend him wholeheartedly" (whilst reluctant, as I want him available for my work). Philip Walsh, Creative Director
